

REMARKS

This application is a reissue application and is entitled to expedited examination pursuant to MPEP 1442.

The above claim amendments are identical to, and the specification amendment is similar to, those in the non-entered Amendment after Final Rejection filed July 20, 2004. The specification amendment adds a reference to another related application filed July 21, 2004. The specification amendments have been presented despite there being no objection thereto in the Final Rejection of April 15, 2004.

Claim 3 is hereby amended to overcome the rejection under 35 USC 112, second paragraph. The sole change to claim 3 relative to the amendment submitted November 24, 2003, is the insertion of the word "peripheral" which was inadvertently omitted in the November 24, 2003 Amendment. Support for the amended language is found at least in Fig. 5 and col. 8, line 62 *et seq.*

The Original Letters Patent No. 5,745,182 was surrendered on April 6, 2001 in the parent reissue application no. 09/559, 627, filed April 27, 2000.

To expedite issuance, the following were submitted with the non-entered Amendment filed July 20, 2004; even though that Amendment was not entered, acceptance of these documents submitted therewith is requested:

- (1) a re-executed Statement under 37 CFR 3.73(b), and

(2) a re-executed Assent of Assignee.

Courtesy copies are attached.

In view of the objection in the Advisory Action, a new Supplemental Reissue Declaration will be submitted when received by the undersigned from the Applicants.

The examiner is requested to follow the suggest in the May 2004 version of the MPEP 1444, at page 1400-54, to "telephone the applicant and request the submission of the supplemental oath/declaration by fax" if the same is not filed when the examiner takes up this application for continued examination.

If any issues remain which may best be resolved through a telephone communication, the Examiner is requested to telephone the undersigned at the local Washington, D.C. telephone number listed below, in order to expedite consideration and allowance of this application.

Respectfully submitted,

Date: September 24, 2004
